ASX ANNOUNCEMENT

21 November 2018

Companies Announcement Office ASX Limited Level 6, 20 Bridge Street Sydney NSW 2000

CFOAM LIMITED CONVERTIBLE NOTE ISSUE

CFOAM Limited ("CFO" or "the Company"), through its 100%-owned subsidiary, CFOAM, LLC, manufacturer of carbon foams CFOAM®, used for ultra high-end performance engineering materials in the industrial, aerospace, military and commercial markets, is pleased to provide the following update to the ASX release of 31 October 2018.

As announced, the Company has secured from existing major shareholders and sophisticated investors, subject to final documentation and shareholder approval, a raising of a minimum of US\$ 3 million through the placement of Convertible Notes with a face value of US\$1 each ("Convertible Note Issue").

The Company has amended the split of the Tranche 1 and Tranche 2 allocation and has now issued, using part of the existing placement capacity under Listing Rule 7.1, 450,000 Convertible Notes which is a maximum dilution of 5,000,000 securities as Convertible Notes (**Tranche 1**). This is based on using a fixed conversion price of A\$0.18 and as result of the convertible notes being in USD this calculation is impacted by an exchange rate floor to be not less than A\$1.00 = US\$0.50.

The balance of the Convertible Notes and participation by the Related Parties, under the same terms of those in Tranche 1, is to be subject to shareholder approval at a General Meeting of Shareholders proposed to be held on 19 December 2018 (**Tranche 2**).

ASX ANNOUNCEMENT

21 November 2018

About CFOAM Limited

CFOAM® is an inorganic carbon material that is manufactured from coal, pitch or lignin feedstock. CFOAM® manufactured in this process has a rigid foam structure, similar in appearance to pumice stone, but with entirely different properties. CFOAM® is currently used across a wide variety of markets including composite tooling for the aerospace sector, energy absorbing applications and defence applications. Additional markets such as the automotive applications for energy absorption and fire resistance are also expected become significant to the Company over time.

CFOAM® was developed to meet the growing demand for ultra-high-end performance engineering materials in the, industrial, aerospace, military and commercial product markets.

Important Notice

Some of the statements appearing in this announcement may be in the nature of forward looking statements. You should be aware that such statements are only predictions and are subject to inherent risks and uncertainties. Those risks and uncertainties include factors and risks specific to the industries in which CFO operates and proposes to operate as well as general economic conditions, prevailing exchange rates and interest rates and conditions in the financial markets, among other things. Actual events or results may differ materially from the events or results expressed or implied in any forward looking statement. No forward looking statement is a guarantee or representation as to future performance or any other future matters, which will be influenced by a number of factors and subject to various uncertainties and contingencies, many of which will be outside CFO's control.

CFO does not undertake any obligation to update publicly or release any revisions to these forward looking statements to reflect events or circumstances after today's date or to reflect the occurrence of unanticipated events. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions or conclusions contained in this announcement. To the maximum extent permitted by law, none of CFO, its directors, employees, advisors or agents, nor any other person, accepts any liability for any loss arising from the use of the information contained in this announcement. You are cautioned not to place undue reliance on any forward looking statement. The forward looking statements in this announcement reflect views held only as at the date of this announcement.

This announcement is not an offer, invitation or recommendation to subscribe for, or purchase securities by CFO. Nor does this announcement constitute investment or financial product advice (nor tax, accounting or legal advice) and is not intended to be used for the basis of making an investment decision. Investors should obtain their own advice before making any investment decision. By reviewing or retaining this announcement, you acknowledge and represent that you have read, understood and accepted the terms of this important notice.
