**Interim Report - 31 December 2020**

**CFOAM Limited**  
**Directors' report**  
**31 December 2020**

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of CFOAM Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 31 December 2020.

**Directors**

The following persons were directors of CFOAM Limited during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Gary Steinepreis  
Todd Hoare  
Nicholas Ong – appointed 24 October 2020  
Flemming B. Bjoernslev – resigned 23 October 2020

**Principal activities**

The principal activity of the Group is the commercialisation of the CFOAM business. CFOAM® products are an inorganic carbon material that is manufactured from coal, pitch or lignin feedstock. CFOAM® products manufactured in this process have a rigid foam structure, similar in appearance to pumice stone, but with entirely different properties. CFOAM® products are currently used across a wide variety of markets including composite tooling for the aerospace sector, energy absorbing applications and defence applications. Additional markets such as automotive applications for energy absorption and fire resistance are also expected to become significant to the Company over time.

CFOAM® products were developed to meet the growing demand for ultra-high-end performance engineering materials in the industrial, aerospace, military and commercial product markets.

**Review of operations**

During the period, the Company was advised by the United States Department of Energy's (DOE) Office of Fossil Energy (FE) that it had been awarded the project listed under Funding Opportunity Announcement (FOA) DE-FOA-0002185, Area of Interest 4. The total project value being US\$2,421,802, including DOE funding of US\$1,923,680 with CFOAM being approximately US\$1.523 million and cost share from CFOAM and CONSOL Energy Inc of US\$498,122. The project commenced on 1 January 2021.

CFOAM has already made good progress in the lab on Atmospheric Pressure Carbon Foam and we believe that this was instrumental in CFOAM's application being selected for award. This has provided a solid base for this exciting project and CFOAM has hit the ground running on this exciting project.

The Advanced Coal Processing Program is focused on the conversion of coal into value-added products, outside of traditional thermal and metallurgical markets, that can contribute to the U.S. Gross Domestic Product and provide a stable and sizable market for U.S. coal production. For the Advanced Coal Processing Program, this FOA sought applications to conduct research and development on coal-derived materials for residential/commercial buildings, infrastructure, and high-value products. This includes supporting research and development to migrate from batch manufacturing to continuous manufacturing of coal-based building materials. The FOA will also support the design, R&D and validation of a prototype carbon-based building.

During the September 2020 quarter, the Board of CFOAM Corp (CCORP) determined that the business of CFOAM LLC required working capital of US\$916,532 to continue its business operations. The funds were required to be contributed on a pro rata basis being CFOAM Limited (CFO) US\$687,399 and CONSOL US\$229,133. However, due to the timing of CFOAM's capital raising strategy, CONSOL contributed its pro rata share of US\$229,133 by 4 September 2020 and further contributed US\$229,133 of CFO's first tranche portion on or around 1 October 2020, on a short-term basis, allowing CFO time to raise its allocation. This has resulted in the ownership structure being varied in CFOAM Corp (74.34% owned by CFOAM Limited, 25.66% owned by CONSOL Energy Inc), effective 31 December 2020.

On 8 October 2020, the Company announced it had entered into a conditional agreement to invest A\$1,550,000 to acquire a strategic 10.24% interest in Innovaero Technologies Pty Ltd (**Innovaero**), an Australian Aerospace and Defence Technology business. This transaction was finalised on 26 November 2020.

To complement this investment, CFO and Innovaero are also discussing ways where CFOAM can be used for tooling and other components in Innovaero's technology developments.

**CFOAM Limited  
Directors' report  
31 December 2020**

CFO proceeded with its capital raising strategy as follows:

- CFO undertook a renounceable rights issue of 4 Shares for every 3 Shares held by shareholders at an issue price of \$0.015 (1.5 cents) per Share to successfully raise A\$3,843,481 (US\$2,821,617) (**Rights Issue**) before costs.
- CFO received the amount of A\$400,000, on a converting loan basis, to cover its 31 October 2020 commitment of US\$229,133 to CFOAM CORP and for general working capital. A\$200,000 of the funds was converted into ordinary shares at the Rights Issue price and A\$200,000 was later approved by shareholders due to it being from a related party and subsequently converted into ordinary shares at the Rights Issue price. CFO contributed US\$687,399 to CCORP which included US\$229,133 to repay the CONSOL prepaid amount.
- CFOAM paid A\$1,550,000 for the 10.24% interest in Innovaero.

The loss for the consolidated entity after providing for income tax amounted to US\$1,698,593 (2019: loss US\$2,089,165).

**Events after the reporting period**

No other matter or circumstance has arisen since 31 December 2020 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

**Significant changes in the state of affairs**

There were no other significant changes in the state of affairs of the consolidated entity during the financial half-year.

**Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on the following page.

This report is made in accordance with a resolution of directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

On behalf of the directors

## **Note 1. Significant accounting policies**

### **Basis for Preparation**

This condensed consolidated interim financial report for the half-year reporting period ended 31 December 2020 has been prepared in accordance with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Act 2001.

The interim report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2020 and any public announcements made by CFOAM Limited during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the adoption of new and amended standards as set out below and a new financial instruments policy.

### **(a) New and amended standards adopted by CFOAM Limited**

There were a number of new or amended standards which became applicable for the current reporting period however, none were applicable to CFOAM Limited which required a change in the accounting policies except for those disclosed in Note 1(b).

### **(b) Financial instruments**

#### *Classification*

The Company classifies its investments as a financial asset at fair value through profit or loss. Management determines the classification of its investments at initial recognition.

#### *Financial assets at fair value through profit and loss*

Financial assets at fair value through profit and loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of holding the asset. Assets in this category are classified as non-current assets.

#### *Recognition and derecognitions*

Regular purchases and sales of financial assets are recognised on trade date – the date on which the Company commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed to the income statement. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

#### *Subsequent measurement*

Financial assets at fair value through profit and loss are carried at fair value with any remeasurements other than impairment losses and foreign exchange gains and losses recognised in profit and loss.

#### *Fair value*

The fair values of quoted investments are based on last trade prices. For unlisted investments, management determine fair value based on inputs other than quoted prices that are either directly or indirectly observable for example recent share raising prices.

### **Significant accounting judgements and estimates**

The preparation of the interim financial report requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

#### *Fair value of financial assets*

Fair value reflects the price that would be received to sell an asset or paid to transfer a liability in orderly transaction between market participants at the measurement date.

**CFOAM Limited**  
**Notes to the financial statements**  
**31 December 2020**

Quoted prices or rates are used to determine the fair value where an active market exists. If the market for a financial instrument is not active or the instrument is unlisted, then fair values are estimated using present value or other valuation techniques, using inputs based on market conditions prevailing on the measurement date, including recent capital raisings.

The values derived from applying these techniques are affected by the choice of valuation model used and the underlying assumptions made regarding inputs such as timing and amounts of future cash flows, discount rates, credit risk, volatility and correlation.

**Note 2: Going concern**

For the half year ended 31 December 2020 the Group recorded a loss from continuing operations after income tax of US\$1,698,593 (2019: loss US\$2,089,165), had net cash outflows from operating activities of US\$1,395,191 (2019: US\$1,647,632) and had a working capital surplus of US\$124,596 (30 June 2020: US\$99,696 deficit).

The ability of the entity to continue as a going concern is dependent on securing additional funding through raising of debt or equity to continue to fund the development activities and expansion of the CFOAM products business.

These conditions indicate a material uncertainty that may cast a significant doubt about the entity's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The directors have reviewed the Group's financial position and are of the opinion that there are sufficient funds to meet the entity's working capital requirements and as at the date of this report.

The financial statements have been prepared on the basis that the entity is a going concern, which contemplates the continuity of normal business activity, realisation of assets and settlement of liabilities in the normal course of business for the following reasons:

- The Company's subsidiary (CFOAM CORP) expects to maintain the ongoing support of its shareholders including CFOAM Ltd and CONSOL Energy Inc;
- CFOAM LLC has been successful for financial assistance and funding opportunity (FOA) to fund process development work over a 24 month period;
- Included in current borrowings is US\$293,400 relating to the Paycheck Protection Program, refer Note 6, the Directors expect the Group to comply with all conditions attached to this funding and therefore the liability recognised will be forgiven with no cash outlay required by the Group; and
- The directors expect the Group to be successful in securing additional funds through debt or equity issues, when and if required.

Should the consolidated entity not be able to continue as a going concern, it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements and that the financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or liabilities that might be necessary should the entity not continue as a going concern.

**Note 3. Operating segments**

*Identification of reportable operating segments*

The Group is organised into one operating segment, being the operation of production of CFOAM. This is based on the Internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources.

As a result, the operating segment information is as disclosed in the statements and notes to the financial statements throughout the report.

*Geographical information*

All sales and non-current assets are based in the USA.

*Revenue Recognition:*

Disaggregation of Revenue.

All revenue recognised during the period was recognised at a point in time for the sale of products. All revenue recorded related to sales in USA.

The loan payable to WVEDA is due on 14 February 2029 and the Summit Community Bank (**Summit**) is due on 1 February 2026 and are secured over the 2016 Assets, which are the assets originally purchased under the Asset Purchase Agreement of 2016, not claimed by the promissory notes security and secured over the Phase 1 assets. The loans have been classified into current and non-current allocations – refer below for Summit.

The loan to CONSOL Energy Inc is due on 6 December 2022 and secured by a CFOAM Corp lien over its equity interests in CFOAM LLC and in accordance with the intercreditor agreement where it ranks behind the promissory notes and WVEDA and Summit Community Bank.

Loan Covenants

Under the terms of the Summit borrowing facility, CFOAM LLC is required to comply with a debt service coverage ratio of at least 1.20:1.00 assessed on a trailing 12 month basis.

In the event of non-compliance with this covenant Summit has the option to consider this an event of default and failure to cure provides Summit the option to increase the interest rate applicable to the facility by 1% or any other default option available to Summit.

This covenant was assessed for the first time for the year ending 30 June 2020 and CFOAM did not comply however, Summit agreed to waive the requirement up to 30 June 2021. Due to this the loan has been classified as a current liability.

Foreign currency reserve	178,250	197,794
	<u>2,074,187</u>	<u>1,773,176</u>

**Nature and Purpose of Reserves**

(1) *Equity reserve – non-controlling interests*

The equity reserve represents a change in ownership interest, being the difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid.

(2) *Share based payment reserve – performance rights*

The share based payment reserve is used to recognise the fair value of performance rights issued to employees but not converted into ordinary shares. The reserve is recognised in contributed equity when and if the relevant milestone is attained within the specified period and as a result the performance rights concerned convert to ordinary shares.

(3) *Option reserve*

The reserve is used to recognise the premium value of the options on issue.

(4) *Foreign currency reserve*

The reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign operations to United States dollars.

On 26 November 2020, the Company made a strategic investment of US\$1,141,397 (A\$1,550,000) in Innovaero Technologies Pty Ltd, an Australian Aerospace and Defence Technology business.

At 31 December 2020, the Company held an equity interest of 10.24% in Innovaero. The Directors have taken the approach to fair value the investment based on recent share raisings.

As at 31 December 2020, the fair value of the Company’s financial assets were assessed in accordance with AASB 9 Financial Instruments, and as a result there was no fair value change recognised in this financial period.

**Fair Value of Financial Instruments**

Financial assets and financial liabilities measured at fair value in the Statement of Financial Position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: unobservable inputs for the asset or liability.

**CFOAM Limited**  
**Notes to the financial statements**  
**31 December 2020**

The following table shows the levels within the hierarchy of financial assets and liabilities measured at fair value on a recurring basis at 31 December 2020.

<b>31 December 2020</b>	<b>Level 1 US\$</b>	<b>Level 2 US\$</b>	<b>Level 3 US\$</b>	<b>Total US\$</b>
Financial assets at FVPL	-	-	1,141,397	1,141,397
	-	-	1,141,397	1,141,397

The fair value of the Level 3 financial assets have been based the cost of the acquisition of the asset on 26 November 2020. The directors consider this to reflect the investments fair value at reporting date.

**Note 11. Non-controlling interests**

On 6 December 2019 CONSOL Energy Inc (**CONSOL**) acquired a 25% interest in the Group's US operations, via CFOAM Corp. CONSOL provided cash consideration of \$3.5 million for the 25% interest. The group recognised an increase in non-controlling interests of \$2,149,959, representing 25% of the net assets of the Group's US operations and an increase in the equity reserve of \$1,350,041.

During the September quarter, the Board of CFOAM Corp (CCORP) determined that the business of CFOAM LLC required working capital of US\$916,532 to continue its business operations. The funds were required to be contributed on a pro rata basis being CFOAM Limited (CFO) US\$687,399 and CONSOL US\$229,133. However, due to the timing of CFOAM's capital raising strategy, CONSOL contributed its pro rata share of US\$229,133 by 4 September 2020 and further contributed US\$229,133 of CFO's first tranche portion on or around 1 October 2020, on a short-term basis, allowing CFO time to raise its allocation. This has resulted in the ownership structure being varied in CFOAM Corp (74.34% owned by CFOAM Limited, 25.66% owned by CONSOL Energy Inc), effective 31 December 2020.

This is summarised as follows:

	<b>31 Dec 2020 US\$</b>	<b>31 Dec 2019 US\$</b>

## INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of CFOAM Limited

### Report on the Half-Year Financial Report

#### Conclusion

We have reviewed the half-year financial report of CFOAM Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2020, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2020 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

**Material uncertainty relating to going concern**

We draw attention to Note 2 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our conclusion is not modified in respect of this matter.

**Responsibility of the directors for the financial report**

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

**Auditor's responsibility for the review of the financial report**

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2020 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
